

Description

- HDPE durAstatic® bottles are dissipative and are designed to protect your valuable static sensitive printed circuitry
- No migratory additives - reduces the chance for contamination from the bottle
- Embossed with ESD protective symbol, allowing people to immediately know the bottle is ESD protective
- Long lasting dissipative properties:
Rtt: 1×10^4 to $<1 \times 10^{11}$ ohms tested per ANSI/ESD stm11.12
<2 Second charge decay, tested per IEC 61340-5-1:1998
- Dispenses approximately 0.2cc of liquid with each pump
- Genuine Menda “dish-type” liquid dispenser pumps and bottle one-handed operation dispensing small amount of liquid into top dish
- Made in the United States of America

“It should be understood that any object, item, material or person could be a source of static electricity in the work environment. Removal of unnecessary nonconductors, replacing nonconductive materials with dissipative or conductive materials and grounding all conductors are the principle methods of controlling static electricity in the workplace, regardless of the activity.” (ESD Handbook ESD TR20.20 section 2.4 Sources of Static Electricity)

One-Touch Pump

Note: Printed bottles eliminate the need for additional labels - custom printing available.

6 oz. bottles include measurements on one side to see how much fluid is left in the container

Item	Description	Color	Height*
35512	6 oz (180mL), One-Touch, Printed “DI WATER”	Blue	4.2” (106.7 mm)
35513	6 oz. (180mL) Bottle Only, Printed “DI WATER”	Blue	3.9” (98.4 mm)
35514	6 oz (180mL), One-Touch, Printed “DI WATER”	Yellow	4.2” (106.7 mm)
35515	6 oz. (180mL) Bottle Only, Printed “DI WATER”	Yellow	3.9” (98.4 mm)

*NOTE: Heights include the bottle with the dispenser lid closed

Unless otherwise noted, tolerance $\pm 10\%$
